This kit contains all the pieces required to a Gorgon Armoured Assault Transport. To join the main pieces either together or to plastic components use Citadel Super Glue.

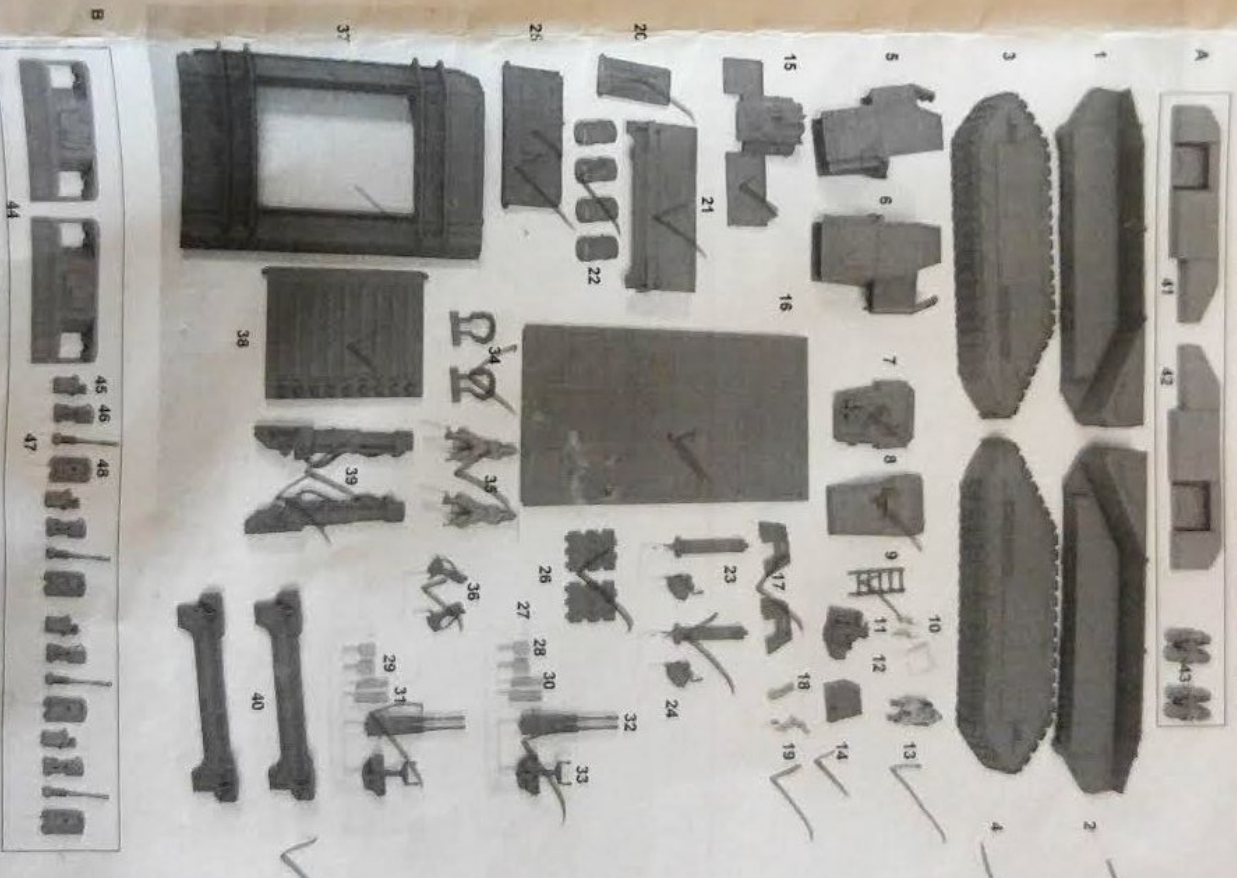

NOTE: We have used this convention for using the most advanced techniques and the best quality steel, but due to the nature of the casting process your model may contain very slight air bubbles. These can easily be filled with model filler or superglue. Any slight overplay of thin parts can easily be corrected by increasing the part in hot fix water for about 1 minute then carefully bending back into shape.

THIS IS NOT A TOY

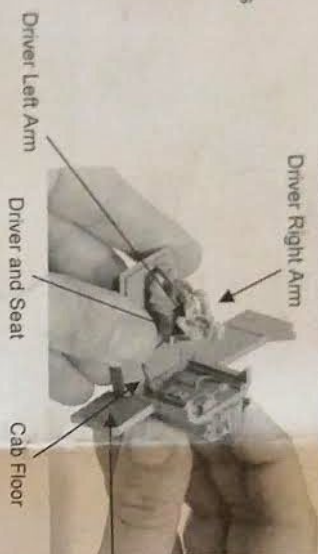

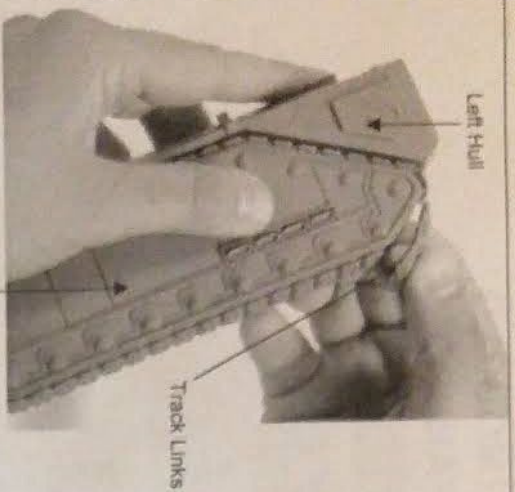

not suitable for children under 12 years of age.

WARNING: Resin dust can be harmful if inhaled. Always wear a dust mask or respirator when sanding or sawing resin parts.
